Summary

I.T. Personnel successful at working with teams, driving progress toward project milestones, quality assurance and on-time delivery. Offers over a decade in application, game, and web development using a wide range of platforms and languages.

Experience

Web Portfolio / HTML, Bootstrap, CSS, JavaScript, jQuery

Ongoing Project /

The main problems that I wanted to solve in this new rendition of my portfolio were, how can I populate the page based on data I have stored in a JSON file using JavaScript / jQuery, and then based on that how do I create a search to allow recruiters to find specific lines of work or projects that relate to what they're looking for while also keeping this to just JS / jQuery so it can stay hosted for free on Github Pages.

Notify.GG Discord Bot / NodeJS

1.5 Months / 32711 Michigan Ave, Wayne, MI 48184

In this position, my responsibilities included cleaning dishes, making sure the establishment was squeaky clean, refilling pop machines and ice, taking care of oil from the whole shift, cleaning bathrooms.

Education

William D. Ford Technical Center / Game Design and Programming 1/2

September 2016 - May 2018, 36455 Marquette St, Westland, MI 48185

Two years of Game Design and Programming education, working with different tools, platforms, and hardware, with emphasis on working with a team, and becoming a team leader.

Certifications and Awards

Microsoft / MTA: Introduction to Programming Using JavaScript

Microsoft / MTA: Introduction to Programming Using Python

General Electric (GEDEX) / Hackathon

1 Village Center Dr, Wayne, MI 48184

I received first place for my creation of an automatic car window opener based on the temperature within the vehicle to protect against animal or child deaths from heatstroke.

William D Ford Career Technical Center / Game Jam

36455 Marquette St, Westland, MI 48185

I received third place in this game jam creating a top down shooter where you throw potions at creatures you've accidentally created in your laboratory as a mad scientist. This game was created in a team with Alexander Marshal and Reese Tran.
